- a. POS Device can delete LGA Code itself after several log in and Out of the Collection Agent.
- b. Device Setting is not faint at the agent page; When Agent change LGA CODE device cannot be seen to LGRCIS.
- c. Many Cases of Smart Phone to fail to communicate with Printer when a command print is issued, this lead to recommanding printing and finally double transaction seen in LGRCIS.
- d. When agent come to cashier office it happen that, Amount agent have on hand differ with the amount seen on adjustment page and the adjustment page differ with the amount of Compilation page.

## **E. Remarks**

Starting on 1<sup>st</sup> Nov.2016 we have realize the great improvement in revenue collection control and management by the use of LGRCIS, System application challenges arised but onspot solution being taken.

- Great thanks to technical support team from TAMISEMI visiting us on Dec,13,2016 were several technical, business and financial issues being addressed.

.....  
Yusuph Rajabu - ICT Officer Kilwa District.
